Tully, NY 13159*

## Concussion Management Team

The Tully Central School District will assemble a concussion management team (CMT). The CMT will consist of administrators, athletic director, school nurse, athletic trainer and/or the school physician. The school district's CMT will coordinate training for all administrators, teachers, coaches and parents. Training will be mandatory for all head coaches, assistant coaches, physical education teachers, school nurses and volunteer coaches that work with the student athletes regularly. In addition, information related to concussions will also be included at parent meetings or in information provided to parents at the beginning of sports seasons. Parents need to be aware of the district's policy and how these injuries will ultimately be managed by school officials.

Training should include:

- Signs and Symptoms of Concussion
- Post-Concussion and Second Impact Syndrome
- Return to Play Protocol

Particular emphasis will be placed on the fact that **NO** athlete will be allowed to return to play the day of the injury and also that **ALL** athletes will obtain appropriate medical clearance prior to initiating the return to play protocol or returning to school.

\*The CMT will meet in June of each school year for an annual review of the Concussion Administrative Procedures and Guidelines.
